Rick:

I'm doing well. The MSD program has not received information that the Exide Battery Recycling facility in Frisco has applied for an MSD. The project manager for this site, Mr. Gary Beyer, may have within the sites monthly status report. However, if the site is applying for an MSD you may want to check with the City of Frisco for any available information as they would receive the initial application or request.

Thank you,

André

Subject: Exide Frisco

Hey Andre,
how are you? Just wanted to follow up on my VM this afternoon. Its my understanding that Exide is applying for an MSD for their Frisco site. Has TCEQ received any info from them regarding this request. We would be interested in seeing it.

thanks

Rick
